Drowning Deaths, by Age and Place, Florida Residents, 2012

*Natural/Open Water includes outdoor lakes, rivers, canals, ponds, etc., even when man-made.

When Do Drownings Occur?

- In Florida, drowning happen year round; however, most fatal and non-fatal drowning combined occur during the spring and summer.
- In 2012, 68% of drowning deaths and non-fatal hospitalizations combined occurred during the months of April through September.

Intent Of Drownings

97% of drowning deaths and non-fatal hospitalizations combined were unintentional, 2% were suicides or suicide attempts, and 1% was undetermined.

Unintentional drowning does not mean unpreventable drowning. According to the 2012 Florida Child Abuse Death Review Report, the leading cause of verified child abuse/neglect deaths in Florida was drowning. The State Committee reviewed 32 verified child neglect cases involving drowning.

Prevention Tips And Resources

- Promote the Layers of Protection: Supervision, Barriers, and Emergency Preparedness. *WaterproofFL—Pool Safety is Everyone's Responsibility.* www.waterprooffl.com
- Install four-sided isolation fencing with a self-closing and self-latching gate around pools and spas.
- Install alarms on all doors and windows leading to the pool.
- Learn to swim and never swim alone or while under the influence of drugs or alcohol.
- Always wear a U.S. Coast Guard approved personal flotation device (PFD) while participating in open water sports and recreation.
- Operate watercraft safely and legally.
- Never dive into water less than nine feet deep. If you don't know, don't dive.
- Learn Cardiopulmonary Resuscitation (CPR).
