[CATI: IF RECRUIT=1, READ: “I know we have already discussed (your/the child's) asthma, but as part of this continuation, I will need to validate some of your earlier answers.”]

Before we continue, I’d like you to know that this survey is authorized by the U.S. Public Health Service Act

You were selected to participate in this study about asthma because of your earlier responses to questions about Asthma.

**ADULT CONSENT**

1. Yes CONTINUE
2. No GO TO REPEAT

Since you no longer have asthma, your interview will be very brief (about 5 minutes). You may choose not to answer any question you don’t want to answer or stop at any time. In order to evaluate my performance, my supervisor may listen as I ask the questions. I’d like to continue now unless you have any questions. [GO TO PRE-PERMISS (2.3)]

READ: Sometimes people use methods other than prescription medications to help treat or control their asthma. These methods are called non-traditional, complementary, or alternative health care. I am going to read a list of these alternative methods. For each one I mention, please answer “yes” if [you have / Child name has] used it to control (IF PATIENT TYPE=ADULT, INSERT “your own”) (IF PATIENT TYPE=CHILD, INSERT “his/her”) asthma in the past 12 months. Answer “no” if [you have / he/she has] not used it in the past 12 months.

In the past 12 months, [have you / has he/she] used … to control (your/his/her) asthma?

[HELP SCREEN: Naturopathy (nay-chur-o-PATH-ee) is an alternative treatment based on the principle that there is a healing power in the body that establishes, maintains, and restores health. Naturopaths prescribe treatments such as nutrition and lifestyle counseling, dietary supplements, medicinal plants, exercise, homeopathy, and treatments from traditional Chinese medicine.]

Section 13. Additional Child Demographics

IF RESPONDENT TYPE=2 (CHILD), CONTINUE; ELSE GO TO THANK AND END.

READ "I have just a few more questions about {child's name}.

HEIGHT1

How tall is {child's name}?

[INTERVIEWER: if needed: Ask the respondent to give their best guess.]

7 7 7 7 = Don’t know/Not sure
9 9 9 9 = Refused

CATI Note: In the first space for the height (highlighted in yellow), if the respondent answers in feet/inches enter “0.” If respondent answers in metric, put “9” in the first space.

Examples:

- 24 inches = 200 (2 feet)
- 30 inches = 206 (2 feet 6 inches),

Appendix A: Coding Notes and Pronunciation Guide

Coding Notes:

1) MISDIAGNOSIS NOTE: If, during the survey, the interviewer discovers that the respondent never really had asthma because it was a misdiagnosis, then assign disposition code "4471 Resp. was misdiagnosed, never had asthma" as a final code and terminate the interview.

2) BACKCODE SYMPFREE (4.4) TO 14 IF LASTSYMP (3.5) = 88 (never) or = 04, 05, 06, or 07 OR IF SYMP_30D = 88. THIS WILL BE DONE BY BSB.

3) CATI Programmer’s note: For the Other in the medications (in INH_MEDS, PILLS_MD, SYRUP_ID or NEB_ID). If “Other” has one of the following misspellings then a menu choice should have been made. Code for this and correct:
