The best known value for whether or not the adult “still has asthma” is used in the skip below. It can be the previously answered BRFSS core value or the answer to CUR_ASTH (2.2) if this question is asked in this call back survey. If the respondent confirms in the “Informed Consent” question that the previously answered BRFSS core (BRFSS ASTHNOW) value is correct then the value from the BRFSS core question (BRFSS ASTHNOW) is used. If the respondent does not agree with the previous BRFSS core value in “Informed Consent” then the question REPEAT (2.0) was asked (REPEAT = 1) then the value for CUR_ASTH (2.2) “Do you still have asthma?” is used.
