**LAKE COUNTY ADVISORY PARTICIPANTS**

The Lake County Health Department Emergency Operations Plan (EOP) provides an all-hazards approach to public health emergency management and meets applicable National Incident Management System and National Framework requirements. The Mass Prophylaxis Annex to the Lake County ESF8 Response Plan defines circumstances whereby authority is given under Florida Statutes to the Department to prepare for, respond to, and recover from an incident where the use of mass prophylaxis is necessary. The annex provides an operational framework for a countywide all hazards mass prophylaxis response component to the Lake County Comprehensive Emergency Management Plan (CEMP) as of January 2012.
