HEALTH OFFICIALS ISSUE RABIES ALERT FOR PORTIONS OF LEVY COUNTY

Bronson – The Florida Department of Health in Levy County issued a rabies alert for portions of Levy County. This is in response to an unvaccinated stray cat that tested positive for rabies on 03/10/2020.

All residents and visitors in Levy County should be aware that rabies is present in the wild animal population and domestic animals are at risk if not vaccinated. The public is asked to maintain a heightened awareness that rabies is active in Levy County. Alerts are designed to increase awareness to the public, but they should not get a false sense of security to areas that have not been named as under an alert.

The recent rabies alert is for 60 days. The center of the rabies alert is near SE 23rd Place, Morriston, Fl. 32668 and includes the following boundaries in Levy County:

- * SE 11 Street North
- * SE 30 street to the south
- * US Highway 41 to the east
- * SE 30 street to the south

This area is generally known as Lake Stafford Estates

An animal with rabies could infect other wild or domestic animals that have not been vaccinated against rabies. All domestic animals should be vaccinated against rabies and all wildlife contact should be avoided, particularly raccoons, bats, foxes, skunks, otters, bobcats and coyotes. Rabies is a disease of the nervous system and is fatal to warm blooded animals and humans. The only treatment for human exposure to rabies is rabies specific immune globulin and rabies immunization. Appropriate treatment started soon after the exposure, will protect an exposed person from the disease.

Residents and visitors are advised to take the following precautions:

- Keep rabies vaccinations up to date for all pets.

- Keep your pets under direct supervision so they do not come in contact with wild animals. If your pet is bitten by a wild animal, seek veterinary assistance for the animal immediately and contact animal control at 352-486-5138.
- Call your local animal control agency to remove any stray animals from your neighborhood.
- **Do not** handle, feed, or unintentionally attract wild animals with open garbage cans or litter.
- **Never** adopt wild animals or bring them into your home.
- Teach children **never** to handle unfamiliar animals, wild or domestic, even if they appear friendly.
- Prevent bats from entering living quarters or occupied spaces in homes, churches, schools, and other similar areas, where they might come in contact with people and pets.
- Persons who have been bitten or scratched by wild or domestic animals should seek medical attention and report the injury to the Florida Department of Health in Levy County at 352-486-5300.

For further information on rabies, go to <http://www.floridahealth.gov/diseases-and-conditions/rabies/index.html> or call the Florida Department of Health in Levy County at 352-486-5300, or Levy County Animal Control at 352-486-5138.

The Department works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.
