

Mission:

To protect, promote & improve the health of all people in Florida through integrated state, county & community efforts.

Rick Scott
Governor

Celeste Philip, MD, MPH
Surgeon General and Secretary

Vision: To be the Healthiest State in the Nation

MEMORANDUM

DATE: April 30, 2018
TO: County Health Department Directors/Administrators
FROM: Carina Blackmore, DVM, PhD, Dipl ACVPM
Director, Division of Disease Control and Health Protection
State Epidemiologist 
SUBJECT: Immunization Assessments Ranking Report for 2017–18

INFORMATION ONLY

Enclosed is the Immunization Section's annual report which combines the following previously published assessments:

- *Kindergarten and Seventh Grade Immunization Status Report 2017–18*
- *Vaccine Accountability Report January 1, 2017–December 31, 2017 (Cumulative)*
- *Assessment of County Health Department Immunization Coverage Levels in 2-Year-Old Children (2018)*
- *Survey of Immunization Levels in 2-Year-Old Children (2017)*

All counties are ranked from highest to lowest percentage achieved for the individual assessment. The counties above the double underline in each assessment met or exceeded the State goal.

Please contact your area field staff representative for questions regarding, or copies of, the previously published assessments included in this report. For further assistance, please contact our survey and assessment consultant, Ms. Amy Wilson, at 850-901-6806.

*Counties listed above the double underline met or exceeded the state goal for that assessment.

¹County Health Department

²Percent of kindergarten students fully immunized per section 1003.22, Florida Statutes and Florida Administrative Code Rule 64D-3.046.

³Percent of seventh grade students fully immunized per section 1003.22 and Rule 64D-3.046.

⁴Percent of specific *Vaccines For Children Program* vaccine **not** Wasted, Spoiled, Expired, or Unaccounted For (WSEUF).

⁵The denominator is 45 (not 67) because 22 CHDs were not included in the assessment, as the total number of 2-year-old children in their immunization home was ≤10.

⁶Percent of 2-year-old children whose parents rely on a Florida CHD as their child's immunization home, who completed the 4:3:1:3:3:1:4 immunization series (four or more doses of diphtheria, tetanus toxoids, and acellular pertussis [DTaP] vaccine, three or more doses of inactivated poliovirus vaccine [IPV], one or more doses of measles, mumps and rubella [MMR] vaccine, three or more doses of *Haemophilus influenzae* type b [Hib] vaccine, three or more doses of hepatitis B vaccine, one or more dose of varicella vaccine [VZV] (or disease history), and four doses of pneumococcal conjugate vaccine [PCV] by 24 months of age.

⁷Percent (weighted based on the number of births in the county) of 2-year-old children who completed the 4:3:1:3:3:1:4 immunization series by 24 months of age.

⁸County-specific data not included due to the total number of 2-year-old children with the CHD as their immunization home being ≤10.
