

INSTRUCTIONS

Note: Complete this form in its entirety. Shade each applicable bubble in pen or pencil. The EXPLANATION OF CODE REFERENCES is for informational purposes only and is subject to change. The current Florida Administrative Code should be consulted for the official version of these references.

EXPLANATION OF CODE REFERENCES

SITE

- 1. Drainage: 64E-15.002(a)(a).** Parks must be evaluation by the county public health unit for environmental health hazards and erosion determinations.
- 2. Space size: 64E-15.002(2)(a)(b)(3)(a)(c).** Space requirements for tent spaces are 500 square feet for RVs; 2400 square feet for single wide mobile homes; and 3500 square feet for double wide mobile homes. Spaces developed before the effective date of this rule are grandfathered.
- 3. Density: 64E-15.002(3).** There are no more mobile homes and or RVs than the permitted number of spaces. The park has not increased the number of permitted spaces without prior approval from the CHD. RV spaces are limited to no more than 25 per acre.
- 4. Roads: 64E-15.011(4).** The roads accessing and within the establishment are maintained to accommodate the vehicular traffic including emergency vehicles.
- 5. Setbacks. 64E-15.002(2)(c)(3)(d).** Spaces and buildings are located at least five feet from the exterior boundary. Spaces are at least 25 feet from a highway and its right of way.

WATER SUPPLY

- 6. Approved System: 64E-15.004(1).** The water supply system has been approved by the Department of Environmental Protection or the Department of Health. Mark item 7 for repairs of system.
- 7. Distribution System: 64E-15.003(2)(3).** The water distribution system has been approved by the local plumbing jurisdiction.
- 8. Bacteriological/Chemical: 64E-15.003(1).** The water system is sampled in accordance with the frequency and limits of Chapter 62-550 or Chapter 10D-4, FAC.
- 9. Backflow Prevention: 64E-15.003(2)(3)(a).** Back flow or back siphonage devices are installed in the water distribution line connection from the main to the unit in new facilities.
- 10. Water Stations: 64E-15.003(3)(a)(b).** The prescribed number of water stations are available at the recreational vehicle park.

SEWAGE DISPOSAL

- 11. Approved System: 64E-15.004(1).** The sewage treatment and disposal system has been approved by the Department of Environmental Protection or the Department of Health.
- 12. Plumbing: 64E-15.006.** All plumbing has been approved by the local plumbing jurisdiction. All sewer to R.V. unit connections are readily removable, acid resistant, and of semi-rigid material.
The connections are capped when not in use. Sewer to unit connections of mobile homes are rigid, fixed connections.
- 13. Dump Stations: 64E-15.004(5)(6)(7).** The prescribed number of sewer dump stations are available at the recreational vehicle park.
- *14. Septic Tanks: 64E-15.004(1).** This item provides for the marking of septic tank repair violations.

SANITARY FACILITIES

- 15. Adequate: 64E-15.005(1).** All RV parks constructed after the effective date of this rule have the minimum number of required sanitary facilities for each gender. The numbers of sanitary facilities have been exempted at RV park's as of January 1, 1993, unless otherwise noticed.
- 16. Ratio: 64E-15.005(2)(3)(4).** There are the right number of sanitary facilities for non self-contained RV spaces.
- 17. Repair: 64E-15.005(1).** Sanitary facilities fixtures are operational and have accessory supplies for patrons and guests.

GARBAGE AND REFUSE DISPOSAL

- 18. Storage: 64E-15.007(1)(2).** Solid waste is processed in a manner that does not create nuisances, odors, harborage, insect breeding accident hazards, or air pollution. Garbage is stored in impervious containers with tight-fitting covers.
- 19. Collection/Disposal: 64E-15.007(3).** Garbage and other solid waste are collected in the frequency of the local jurisdiction and the waste is disposed at a DEP approved site.

INSECT AND RODENT CONTROL

- 20. Harborage: 64E-15.008.** The premises are free from rat harborage and rats.
- 21. Extermination: 64E-15.008.** Effective extermination measures are taken when rodent and insect vectors are found.

**RECREATIONAL CAMPS

- **22. Sites: 64E-15.009(1)(a)(b)(c)(d).** The site is located to minimize insect and rodent infestations. The roads accessing and within the establishment are maintained to accommodate the vehicular traffic in a safe manner. Designated tent spaces are a minimum of 500 square feet.
- 23. Shelters: 64E-15.009(2)(a)(b)(c)(d).** The shelters provide enough space to prevent overcrowding, provide separate sleeping facilities for each gender, and provide screening of not less than 16 mesh for window and door openings.
- 24. Heating: 64E-15.009(3)(a)(b).** There are approved heating devices or equipment in permanent, non transient structures to maintain a minimum temperature of 68 degrees Fahrenheit during the months of September through April. Cooking devices are not considered heating equipment.
- 25. Electric Wiring: 64E-15.009(4).** Electric wiring is installed in accordance with the local electrical ordinance or the 1993 edition of the National Electrical Code.
- 26. Beds and Bedding: 64E-15.009(5)(a)(b)(c)(d)(e).** Beds are provided for camp occupants when other arrangements have not been made. Mattresses and other bedding which has been sanitized are provided. Bedding is checked regularly to ensure freedom from vermin. Prescribed standards of spacing between beds and bunks are maintained.
- 27. Food Service Facilities: 64E-15.009(6)(a)(b).** There is a 64E-11, FAC, kitchen operating at this facility. The kitchen is permitted by DOH. Accessory kitchens have been approved by the health department.
- 28. Sanitary Facilities: 64E-15.009(7)(a)(b)(c)(d)(e)(g).** There are the prescribed rations of toilets, urinals, showers, and handwashing fixtures for each gender in barracks and dormitory type shelters. Sanitary facilities are located within 200 feet of each sleeping room. There is a satisfactory method for laundering bedding and clothing.
- 29. Water Supply: 64E-15.009(8)(a)(b)(c).** The water supply is approved. When drinking fountains are provided they are out of the angle-jet type.
- 30. Sewage Disposal: 64E-15.004(1), 64E-10.010(f).** The sewage treatment and disposal system is approved by DOH or DEP.
- 31. 911#: 64E-15.011(4).** Each recreational camp has access to Emergency Medical Care. The name of the operator and how to contact that person is posted in prominent places.
- 32. Disease Control: 64E-15.011(3).** The operator or supervisor of a recreational camp has been informed of the reporting responsibilities of communicable diseases to the CHD. Emergency medical staff are aware of the location of the recreational camp.

PERMITS AND FEES

- 33. Permit Current. Chapter 513, FS.,** All permits expire September 30 of each year. The permit is current.
- 34. Plan on File: 64E-15.010(2)(b).** A current copy of the layout and configuration of the park or camp is on file at the health department.
- 35. Permit Application: 64E-15.010(3)(a)(b)(c)(d).** Park and camp operators must make annual applications for permits.
- 36. Fee Paid: 64E-15.010(3)(a)(b)(c).** Parks and non-exempt recreational camps shall pay the established fee per space or its equivalent of occupants to space.

OWNER/OCCUPANT RESPONSIBILITY

- 37. Maintenance: 64E-15.011(1).** The premises of the park or camp must be maintained free from rubbish, waste paper, garbage, litter, and other refuse. Repairs of water and sewer systems must be given the highest priority of maintenance.
- 38. 513 Available:** A copy of Chapter 513, FS., must be available to all R.V. park management and patrons during normal hours of operation.
