STATEMENT REGARDING CLAIMS BY HOLLYWOOD HILLS REHABILITATION CENTER

It is 100 percent the responsibility of health care professionals to preserve life by acting in the best interest of the health and well-being of their patients. Let's be clear – this facility is located across the street from one of Florida's largest hospitals, which never lost power and had fully operating facilities. The tragic and senseless loss at Hollywood Hills Rehabilitation Center is the subject of a criminal homicide investigation by law enforcement.
