

WEEKLY UPDATE – December 15, 2017

The Florida Department of Health's (DOH) top priority is the health and safety of Florida's families. Through the DOH Office of Medical Marijuana Use (OMMU), we are working diligently every day to implement the many requirements in Amendment 2 and those set by the Florida Legislature in Senate Bill 8A and are dedicated to ensuring patients have safe access to low-THC cannabis and medical marijuana. We remain committed to moving this process forward, and will do so in an expedient and thoughtful manner. To keep the public informed of the latest updates, DOH will issue a weekly update on this issue.

Implementation Updates

- **Low-THC cannabis and medical marijuana has been and continues to be available for qualified patients.** Patients may search for qualified ordering physicians using the new search tool on the OMMU Patients Page. Patients and caregivers may fill their orders at any of the 25 dispensing locations, or via delivery from approved MMTCs below.
- **Card Program** - On Tuesday Nov. 20, the department executed the contract with Veritec Solutions, LLC, to outsource the Medical Marijuana Use Identification Card Program. DOH anticipates Veritec's call center to be operational by January 8, 2018 and for the card program to be fully transitioned by mid-February.
- On September 28, 2017, the Florida Medical Association and Florida Osteopathic Medical Association issued the new course titled *Florida Physician Medical Marijuana Course*. **All**

*Note, not all patients entered into the medical marijuana use registry apply for medical marijuana use identification cards.

physicians who previously qualified to order medical marijuana are required to take the new course by December 26, 2017.

- DOH has created a new OMMU site for physicians. The site offers many resources for physicians who are authorized to order low-THC cannabis and medical marijuana in Florida. The site is located at www.flhealthsource.gov/ommu

Legal Updates

The implementation of Amendment 2 and Senate Bill 8A continues to be frequently litigated. While some of these lawsuits have little impact on our progress, others – particularly those regarding the constitutionality of the law we are tasked with executing – have significant impact on DOH's ability to implement certain requirements of Senate Bill 8A.

General Background Information

Medical Marijuana ID Card Application Process: Once a patient has been diagnosed by a qualified ordering physician and entered into the Medical Marijuana Use Registry, they can immediately begin the identification card application process. The department encourages applicants to complete the process online as this decreases processing time. Patients receive an email from OMMU once their email is added to the registry by their qualified ordering physician which directs them to the application. Once an application is reviewed and approved, patients receive an approval email which can be used to fill an order at an approved MMTC while they await their physical card.

Medical Marijuana Use Registry: All orders for medical marijuana are recorded and dispensed via the Medical Marijuana Use Registry. The Medical Marijuana Use Registry is accessible online, with real time information to ordering physicians, law enforcement and medical marijuana treatment center staff. Patients and caregivers may also access the Medical Marijuana Use Registry to submit a Medical Marijuana Use Registry Identification Card application, and check the status of their application.

Medical Marijuana Treatment Centers: Approved medical marijuana treatment centers are the only businesses allowed to grow, process, or sell medical marijuana in Florida. Each medical marijuana treatment center must receive authorization at three stages, (1) cultivation authorization, (2) processing authorization, and (3) dispensing authorization, prior to dispensing low-THC cannabis or medical marijuana. Medical marijuana cannot be mailed.
