

Florida Arbovirus Surveillance

Week 41: October 5 - 11, 2025

Arbovirus surveillance in Florida includes endemic mosquito-borne viruses such as West Nile virus (WNV), Eastern equine encephalitis virus (EEEV), and St. Louis encephalitis virus (SLEV), as well as exotic viruses such as dengue virus (DENV), chikungunya virus (CHIKV), Zika virus (ZIKV), and California encephalitis group viruses (CEV). Malaria, a parasitic mosquito-borne disease is also included. During the period of October 5 – 11, 2025, the following arboviral activity was recorded in Florida.

WNV activity: No human cases of WNV infection were reported this week. No horses with WNV infection were reported this week. Twenty-six sentinel chickens tested positive for antibodies to WNV in Alachua, Citrus, Duval, Hillsborough, Hernando, Martin, Pasco, Pinellas, Polk, Putnam, St. Lucie, Sumter, Volusia, and Walton counties. In 2025, positive samples from five symptomatic humans, six asymptomatic blood donors, one horse, one duck, and 254 sentinel chickens have been reported from 28 counties.

SLEV activity: No human cases of SLEV infection were reported this week. No sentinel chicken tested positive for antibodies to SLEV this week. In 2025, positive samples from three sentinel chickens have been reported from two counties.

EEEV activity: No human cases of EEEV infection were reported this week. No horses with EEEV infection were reported this week. One sentinel chicken tested positive for antibodies to EEEV in Citrus County. In 2025, positive samples from nine horses, two emus, one emu flock, one goat, and 52 sentinel chickens have been reported from 22 counties.

International Travel-Associated Dengue: Fifteen cases of dengue were reported this week in persons that had international travel. In 2025, 269 travel-associated dengue cases have been reported.

Dengue Cases Acquired in Florida: Two cases of locally acquired dengue were reported this week. In 2025, positive samples from 49 humans and four mosquito pools have been reported from four counties.

International Travel-Associated Chikungunya Fever Cases: One case of chikungunya fever was reported this week in a person that had international travel. In 2025, nineteen cases of travel-associated chikungunya fever have been reported.

Chikungunya Fever Cases Acquired in Florida: No cases of locally acquired chikungunya fever were reported this week. In 2025, no cases of locally acquired chikungunya fever have been reported.

International Travel-Associated Oropouche Fever cases: No cases of Oropouche fever were reported this week in persons that had international travel. In 2025, no cases of travel-associated Oropouche fever have been reported.

International Travel-Associated Zika Fever Cases: No cases of Zika fever were reported this week in persons that had international travel. In 2025, no travel-associated Zika fever cases have been reported.

Zika Fever Cases Acquired in Florida: No cases of locally acquired Zika fever were reported this week. In 2025, no cases of locally acquired Zika fever have been reported.

Advisories/Alerts: Alachua, Bay, Clay, Duval, Hernando, Hillsborough, Lafayette, Leon, Palm Beach, Pasco, and Pinellas counties are currently under a mosquito-borne illness advisory. Brevard, Escambia, and Miami-Dade counties are currently under a mosquito-borne illness alert.

There are currently multiple travel health notices from the Centers for Disease Control and Prevention related to mosquito-borne diseases.

Dengue			Oropouche	Yellow Fever	Chikungunya			Malaria
Africa and the Middle East	Americas	Asia and the Pacific Islands	Americas	Americas	Africa	Americas	Asia	Africa
Comoros	Belize	Austral Islands	Brazil	Colombia	Kenya	Cuba	Bangladesh	Ethiopia
Samoa	Colombia	Bangladesh	Cuba		Madagascar		China

		Marquesas Islands						
		Nauru						
		Philippines						
		Tuvalu						
		Vietnam						

Level 1 Travel Health Notice, Level 2 Travel Health Alert: wwwnc.cdc.gov/travel/notices.

For a map of arboviral disease activity in the United States visit: <https://www.cdc.gov/fight-the-bite/at-risk/index.html>.

2025 Human Case Summary

West Nile Virus Illness Acquired in Florida: In 2025, five human cases of WNV illness acquired in Florida have been reported in Clay (July), Duval (August), and Escambia (August) counties. Six asymptomatic blood donors have been reported in Escambia (June, July, August), Miami-Dade (July), and St. Johns (June) counties.

2025 International Travel-Associated Chikungunya Cases: Nineteen cases with onset in 2025 have been reported in individuals with travel history to a chikungunya-endemic area in the two weeks prior to onset. Counties reporting cases were: Broward (5), Collier, Hendry, Hillsborough, Lake, Miami-Dade (7), Palm Beach, and Seminole (2). Countries of origin were: Bangladesh (2), Bolivia, Brazil (2), Cuba (9), India (2), Indonesia, and Sri Lanka (2).

2025 International Travel-Associated Dengue Cases: Two hundred sixty-nine cases with onset in 2025 have been reported in individuals with travel history to a dengue-endemic area in the two weeks prior to onset. Counties reporting cases were: Bay, Brevard (2), Broward (13), Clay, Collier (3), Duval (4), Escambia, Hernando, Hillsborough (14), Indian River, Lake (4), Lee (11), Manatee (2), Marion, Miami-Dade (165), Monroe (4), Okeechobee (3), Orange (9), Osceola (4), Palm Beach (8), Pasco, Pinellas (7), Polk (2), Seminole, St. Johns, St. Lucie (3), and Volusia (2). Nine cases were reported in non-Florida residents. In 2025, 227 cases of dengue reported in Florida have been serotyped by PCR. Please see the table below for a breakdown of cases by country of origin and serotype.

Country of Exposure	DENV-1	DENV-2	DENV-3	DENV-4	Unknown	Total
Antigua and Barbuda			1			1
Argentina	2					2
Bahamas			1			1
Bonaire			1			1
Brazil	1	4	1		3	9
Colombia	1	1	2		1	5
Cuba		9	11	138	22	180
Cuba/Mexico					1	1
Curacao			1			1
Dominica			1			1
Dominican Republic			1			1
Ecuador			3			3
El Salvador			1		2	3

Country of Exposure	DENV-1	DENV-2	DENV-3	DENV-4	Unknown	Total
French Polynesia	1				1	2
Guatemala			2			2
Guyana		7			1	8
Mexico			8			8
Nicaragua			9		3	12
Peru			1		1	2
Philippines					1	1
Puerto Rico		1	10	1	2	14
Puerto Rico/Dominican Republic		1			1	2
Sri Lanka					1	1
St. Barts			3			3
St. Barts/St. Martin			1			1
Surinam		1				1
US Virgin Islands		1			2	3
Total	5	25	58	139	42	269

2025 Dengue Cases Acquired in Florida: In 2025, 49 cases of locally acquired dengue have been reported in Brevard (33), Hillsborough, Miami-Dade (14), and Pasco counties with onset in February, May, June, July, August, and September. One case was reported in a non-Florida resident. Thirty-seven cases have been serotyped by PCR. Please see the table below for a breakdown of cases by county and serotype.

County of Exposure	DENV-1	DENV-2	DENV-3	DENV-4	Unknown	Total
Brevard			22		11	33
Hillsborough				1		1
Miami-Dade		2	1	10	1	14
Pasco	1					1
Total	1	2	23	11	12	49

2025 International Travel-Associated Malaria Cases: Thirty-eight cases with onset in 2025 have been reported in individuals with travel history to a malaria-endemic area. Counties reporting cases were: Alachua (2), Brevard, Broward (5), Collier, Duval, Hillsborough (3), Lake, Leon, Manatee, Marion (2), Miami-Dade (4), Nassau (2), Orange (4), Palm Beach (4), Pasco, Polk (2), St. Lucie (2), and Volusia. Eleven cases were reported in non-Florida residents. Please see the table below for a breakdown of cases by country of origin and *Plasmodium* species.

Country of Exposure	<i>Plasmodium falciparum</i>	<i>Plasmodium ovale</i>	<i>Plasmodium vivax</i>	Total
Africa	3			3
Angola	1			1
Cameroon	1			1
Central America			1	1

Peru			1	1
Rwanda	1			1
Sierra Leone	1			1
Uganda	1			1
Uganda/Kenya	1			1
Total	31	1	6	38

Veterinary Cases**

**Veterinary cases are reported by date of onset. Only mammalian veterinary cases are included in the graphs.

No veterinary cases were reported this week.

Sentinel Chickens

The table below is for the reporting of confirmatory laboratory results from this week. Some of the samples were collected at earlier dates. The date of collection is recorded for samples collected on that day along with the total number of positives and the corresponding seroconversion rate for the week the sample was collected.

Twenty-six sentinel chickens tested positive for antibodies to WNV in Alachua, Citrus, Duval, Hillsborough, Hernando, Martin, Pasco, Pinellas, Polk, Putnam, St. Lucie, Sumter, Volusia, and Walton counties. One sentinel chicken tested positive for antibodies to EEEV in Citrus County.

County	Collection Date	Seroconversion Rates (%)						County Totals	
		Flavi	SLEV	WNV	Alpha	EEEV	HJV	Collection Week	YTD
Alachua	9/23/2025	18.75		18.75				3 WNV	2 EEE, 12 WNV
Citrus	9/30/2025	3.08		3.08	1.52	1.52		1 EEEV, 2 WNV	9 EEEV, 12 WNV
Duval	9/29/2025	4.00		4.00				1 WNV	15 WNV
Hillsborough	9/30/2025	3.33		3.33				1 WNV	1 EEEV, 25 WNV
Hernando	9/29/2025	14.71		14.71				5 WNV	1 EEEV, 5 WNV
Martin	9/25/2025	2.50		2.50				1 WNV	3 WNV
Pasco	9/30/2025	2.04		2.04				1 WNV	1 EEEV, 18 WNV
Pinellas	9/29/2025	7.41		7.41				4 WNV	25 WNV
Polk	9/26/2025	2.27		2.27				1 WNV	2 EEE, 10 WNV
	9/29/2025	4.35		4.35				2 WNV	
Putnam	9/22/2025	7.14		7.14				1 WNV	9 WNV
St. Lucie	9/24/2025	2.22		2.22				1 WNV	1 HJ, 2 SLEV, 2 WNV
Sumter	9/23/2025	4.17		4.17				1 WNV	4 WNV
Volusia	9/29/2025	3.03		3.03				1 WNV	3 EEEV, 19 WNV
Walton	9/29/2025	1.92		1.92				1 WNV	11 EEEV, 3 HJ, 17 WNV

Sentinel Seroconversions to WNV in Florida, 2024–2025

Sentinel Seroconversions to EEEV in Florida, 2024–2025

Mosquito Pools

No mosquito pools tested positive for EEEV or WNV this week.

County	Collection Date	Result	Species	County YTD
--------	-----------------	--------	---------	------------

Dead Birds

The Fish and Wildlife Conservation Commission (FWC) collects reports of dead birds, which can be an indication of arbovirus circulation in an area. This week, 5 reports representing a total of 15 dead birds, including one crow and one jay were received from 3 counties.

In 2025, 1188 reports representing a total of 2652 dead birds (94 crows, 46 jays, 253 raptors, 236 doves) were received from 58 of Florida's 67 counties.

2025

County	Total Dead Birds	Crows	Jays	Raptors	Doves
Alachua	1	1	0	0	0
Hillsborough	4	0	1	1	0
Santa Rosa	10	0	0	0	0

2025 Mosquito-Borne Disease Activity by County

County	Humans	Equines	Sentinel Chickens	Other
Alachua			2 EEEV (7/24), (7/31) 12 WNV (7/24), (7/31), (8/5), (9/4), (9/8), (9/16), (9/23)	
Bay			12 WNV (3/24), (8/4), (9/8), (9/15), (9/22)	1 EEEV goat (7/23)

County	Humans	Equines	Sentinel Chickens	Other
Brevard	33 dengue (May, July (10), August (20), September (2))	1 EEEV (7/18)	1 SLEV (7/9) 3 WNV (2/7), (7/18), (9/12)	4 DENV-3 mosquito pools (Ae. aegypti 7/24, 8/6, 9/4)
Citrus			9 EEEV (3/11), (4/1), (4/8), (5/28), (6/24), (7/7), (7/9), (9/30) 12 WNV (1/6), (2/10), (2/17), (8/12), (9/3), (9/9), (9/23), (9/30)	
Duval	1 WNV (August)		15 WNV (8/12), (8/18), (8/25), (9/2), (9/23), (9/29)	1 WNV duck (8/5)
Charlotte			1 WNV (7/18)	
Clay	1 WNV (July)			
Escambia	3 WNV (August (3)) 4 asymptomatic WNV blood donors (June (2), July, August)			
Hernando			1 EEEV (7/21) 5 WNV (9/29)	
Hillsborough	1 dengue (July)		1 EEEV (7/14) 25 WNV (4/21), (8/11), (8/18), (8/25), (9/2), (9/8), (9/11), (9/22), (9/30)	
Holmes		1 EEEV (8/19)		
Indian River			2 WNV (1/2)	
Jefferson		1 EEEV (6/12)		
Lafayette				1 EEEV emu flock outbreak (7/6 for the first emu)
Lake		1 EEEV (4/2)		
Leon			3 EEEV (7/22), (8/13), (9/17) 9 WNV (7/22), (8/5), (8/13), (9/2), (9/9), (9/17)	
Levy		1 EEEV (6/20)		
Madison		1 EEEV (6/30)		
Manatee			1 WNV (9/16)	
Martin			3 WNV (9/11), (9/18), (9/25)	
Nassau		1 EEEV (7/21)		
Miami-Dade	14 dengue (February, June, August (8), September (4)) 1 asymptomatic WNV blood donor (July)			
Orange			16 EEEV (2/24), (4/7), (6/2), (6/9), (6/16), (6/23), (6/30), (7/14), (7/21), (7/28), (8/4), (8/18), (8/25), (9/2) 1 HJV (7/14) 11 WNV (3/31), (8/4), (8/25), (9/2), (9/9), (9/15)	1 EEEV emu (1/1)
Palm Beach			26 WNV (1/7), (1/21), (1/27), (2/10), (2/17), (2/24), (3/10), (3/17), (4/29), (5/13), (6/16), (8/12), (9/8), (9/9), (9/23)	
Pasco	1 dengue (July)		1 EEEV (7/7) 18 WNV (1/13), (8/18), (9/2), (9/8), (9/15), (9/22), (9/30)	

County	Humans	Equines	Sentinel Chickens	Other

For more surveillance information, please see the DOH website at: www.floridahealth.gov/diseases-and-conditions/mosquito-borne-diseases/surveillance.html

For arbovirus surveillance information for the United States, please see the Centers for Disease Control and Prevention website at: www.cdc.gov/ncidod/dvbid/westnile/surv&control.htm

Case tallies included in the weekly Florida arbovirus surveillance report include confirmed and probable cases for EEE, WNV infection, SLE, dengue, chikungunya, and malaria by date of onset. Suspect cases are not included. Activity is mapped by county of exposure rather than county of residence. Case definitions being used in Florida are consistent with national criteria provided by the Council of State and Territorial Epidemiologists (CSTE) and may be viewed at: www.floridahealth.gov/diseases-and-conditions/disease-reporting-and-management/disease-reporting-and-surveillance/index.html. Case tallies reported by CDC do not include suspect cases and cases are reported by patient state of residence rather than where the exposure occurred. Data is provided by county health departments, Department of Health Bureau of Public Health Laboratories, Department of Agriculture and Consumer Services, mosquito control agencies, Florida Fish and Wildlife Conservation Commission, medical providers and veterinarians. Equine cases are provided by the Department of Agriculture and Consumer Services.
