

Hepatitis A Surveillance

January 1, 2018–September 14, 2019

From January 1, 2018 through September 14, 2019, 3,088 hepatitis A cases were reported. ▼

The number of reported hepatitis A cases more than doubled from 2016 to 2017 and nearly doubled again in 2018 after remaining relatively stable in previous years. Case counts in 2019 have already surpassed those in 2018.

Counties that reported a hepatitis A case last week are outlined in black. Since January 1, 2018, 98% of cases have likely been acquired locally in Florida. ▼

There were 78 hepatitis A cases reported last week. Weekly case counts have steadily increased overall since 2018. Case counts in weeks prior to the public health emergency declaration are shown in light red while case counts in weeks since are shown in red. ▼

From September 8, 2019 to September 14, 2019, county health departments (CHDs) administered 2,227 (39%) of the total 5,760 first doses of hepatitis A vaccine administered to adults age 18 years and older, as recorded in Florida SHOTS. In 2019 CHDs have administered 85,556 vaccinations and non-CHDs have administered 125,998 vaccinations for a total of 211,554 vaccinations. Vaccinations given before the public health emergency declaration are shown in lighter colors than those given after. ▼

*Public health emergency (PHE) issued August 1, 2019

Hepatitis A Surveillance Systems Summary

Case Data

- Current case data are preliminary and will change as new information is gathered. The most recent data available are displayed in this report.
- Hepatitis A is a reportable disease in Florida. Case information is documented by county health department epidemiologists in Merlin, Florida's reportable disease surveillance system.
 - Only Florida residents are included in case counts. Hepatitis A case counts include both confirmed and probable cases.
- Map counts and rates are determined by the individual's county of residence; these data do not take into account location of exposure.
- For more information about reportable diseases, please visit [FloridaHealth.gov/DiseaseReporting](https://www.floridahealth.gov/DiseaseReporting).
- For more information about Florida's guides to surveillance and investigation, including disease-specific surveillance case definitions, please visit [FloridaHealth.gov/GSI](https://www.floridahealth.gov/GSI).

Population Data

- Population data from 2019 used to calculate incidence rates are from FLHealthCHARTS (Community Health Assessment Resource Tool Set).
- For more information about FLHealthCHARTS, please visit [FLHealthCharts.com](https://www.flhealthcharts.com).

Vaccination Data

- Vaccination data are from Florida's statewide immunization registry, Florida SHOTS. Use of Florida SHOTS is optional for most providers.
- For more information about Florida SHOTS, please visit [flshotsusers.com](https://www.flshotsusers.com).
