PURPOSE AND EFFECT: To add autonomous advanced practice registered nurses and physician assistants as health care providers that are authorized to sign DH Form 1896, as permitted by Chapters 2020-9 and 2021-204, Laws of Florida, to define terms, and to clarify that the term “copy” includes an electronic medical record.

SUMMARY: The rule provides that an emergency medical technician (EMT) or paramedic will withhold or withdraw cardiopulmonary resuscitation (CPR) from a patient if the EMT or paramedic is presented with or observes on the patient’s person a completed DH Form 1896, titled “Do Not Resuscitate Order,” that is signed by the patient’s physician. The proposed changes add autonomous advanced practice registered nurses and physician assistants as health care providers that are authorized to sign DH Form 1896, as permitted by Chapters 2020-9 and 2021-204, Laws of Florida; define the terms used in the rule, and clarify that the term “copy” includes a reproduction of the original that accurately reproduces the completed DH Form 1896, including handwriting, signatures, and the yellow background required on the original.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: Through its analysis of regulatory costs required as a part of the SERC analysis, the Agency has determined this rule will not require legislative ratification pursuant to Section 120.541(3), F.S.

Any person who wishes to provide information regarding a statement of estimated regulatory costs or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.
