

NATIONAL MINORITY HEALTH MONTH

#VaccineReady

April 2021

April is National Minority Health Month

This year, the Office of Minority Health and Health Equity is focused on the impact COVID-19 is having on racial and ethnic minorities.

This reveals the need for us to get vaccinated now. This year's theme for National Minority Health Month is **#Vaccine Ready**

We want to empower communities to:

- **Get the facts about COVID-19 vaccines.**
- **Share accurate vaccine information.**
- **Participate in clinical trials.**
- **Get vaccinated now.**
- **Practice COVID-19 safety measures.**

Meanwhile, take these steps to protect yourself:

- **Wear a mask to protect yourself and others.**
- **Wash hands often with soap & water for at least 20 seconds.**
- **Stay 6 feet (2 arm lengths) from others who don't live with you.**
- **Avoid crowds. The more people you come in contact with, the more likely you are to be exposed to COVID-19.**

**Meeting Friends?
Protect Yourself and Others from COVID-19**

Wear a mask

Stay 6 feet from others

Meet outdoors if possible

Protect yourself and your friends the most by doing all three
