Ready to shop?

Remember these shopping tips:

- **Save time and money by making a list first.** This way you will only buy foods that you need.
- **Have a snack before shopping.** Grocery shopping while hungry can lead us straight to the chips and cookies!
- **Choose your perishable foods last.** This will help foods stay a safe temperature longer.
- Use your **Florida WIC app** to see if the food you want is an approved WIC food on your EBT card.
