

Appendix B (RFA25-001) - Cinotti Health Care Screening & Services Grant Program – Autism Spectrum Disorder Logic Model

LOGIC MODEL

The purpose of the program is to expand access to no-cost health care screenings or services for the general public facilitated by nonprofit entities.

Needs	Inputs	Activities	Outputs	 Short Term Outcomes (Quarterly Reports)	Intermediate Outcomes (1 year/Completion)	Long Term Outcomes (5-year plan)
<i>Who will benefit from the free screening programs?</i>	<i>Tools, procedures, staff, etc. necessary to create a new or expanded free screening program?</i>	<i>What are the activities that may create the necessary change?</i>	<i>What are the immediate “outputs”? Quantitative (number) or procedural.</i>	<i>What are the short-term outcomes or results? Quantitative and qualitative reporting required.</i>	<i>What is one Intermediate term outcome or result? Quantitative and qualitative reporting required.</i>	<i>What is one long term outcome or result? This visionary goal may be quantitative or qualitative.</i>
<p>There are not enough free Autism Spectrum Disorder (ASD) screening programs in Florida’s communities.</p> <p>Identify any relevant geographic areas that are impacted.</p> <p>Identify who needs screening and outline how they will be included in the design of the new or expanded free ASD screening program</p>	<ul style="list-style-type: none"> • Increased staff • Increased program infrastructure • Coordination • Monitoring/Tracking Tools • Community Engagement • Community Partners • Health System Partners • Educational Materials • Promotional Materials • Bi-directional Referral agreements • Clinical review and oversight • Strategies to address access barriers 	<p>New or Expanded free screening programs with integrated clinical oversight.</p> <p>Before screening: Outreach to clients, targeted support and education to access and understand screening services.</p> <p>After screening: Referral and follow-up to ensure positive health outcomes.</p>	<ul style="list-style-type: none"> • New or Expanded free screening programs • Expanded staff capacity • Expanded community partnerships • Expanded Clinical partnerships • New or expanded Educational Materials • New or expanded Promotional Materials • Targeted Marketing campaigns 	<p>Increased free screening opportunities are available.</p> <p>Quantitative Report: Expanded capacity for screenings whether daily/weekly or total number (for screening events). Increased bi-directional referrals.</p> <p>Narrative report: Increased awareness, Increased knowledge of screening necessity (Education).</p> <p>Follow-up efforts to track and support patients after the screening takes place and communicate with referral physician.</p>	<p>Increased screening rates for the individuals identified for the ASD screening.</p> <p>Report on the total number of screenings taking place. Reports will be submitted quarterly and at the conclusion of the project with the final report.</p> <p>Report on the total number of referrals quarterly.</p>	<p>Improved health and quality of life through early identification and support for individuals with ASD, reducing the impact of preventable conditions and delays.</p> <p>Report on the number of individuals enrolled in intervention or treatment programs for children diagnosed with ASD.</p>
