Introduction

This is the annual review report for the 2017-2022 Citrus Community Health Improvement Plan (CHIP). The activities and collaborative efforts of the Florida Department of Health in Citrus County and community partners will be reflected within the report. This document will serve as a progress review of the strategies that were developed and the activities that have been implemented. While the CHIP is a community-driven and collectively owned health improvement plan, the Florida Department of Health in Citrus County (DOH-Citrus) is charged with providing administrative support, tracking and collecting data, and preparing the annual review report.

Overview of CHIP and Annual Review Meeting

DOH-Citrus, with the help of WellFlorida, Inc. prepared a Community Health Needs Assessment (CHNA) in 2016. The document was received and approved by DOH-Citrus in January 2016. On February 24, 2016, DOH-Citrus held an initial CHIP meeting with the Citrus Health Improvement Partnership (CHIP Partnership). The purpose of the meeting was to introduce partners to the CHNA findings and the CHIP process as a blueprint for identifying resources and opportunities to improve the health of our community. Shortly after that initial meeting, four subcommittees were created to address the findings of the CHNA and develop the 2017-2022 CHIP. In October 2016, another subcommittee was added to include the Florida Healthy Babies Initiative to address infant mortality.

The CHIP Partnership continued to meet on a monthly basis while the subcommittees met on their own to develop their goals, strategies and objectives using action plans that identified steps, resources, responsibilities and timeframes. These action plans helped to develop the 2017-2022 CHIP, which was approved by the CHIP Partnership on October 13, 2017. The CHIP Partnership reviewed the plan progress and approved the 2018 Annual Progress Report on February 7, 2019 with minor revisions.

In 2019, the CHIP Partnership continued to meet; however, with previous members no longer attending and new members joining, no further action was taken on the preceding goals, strategies and objectives. Also, no changes were made in 2019 to the 2017-2022 CHIP, so the CHIP Partnership made 2019 the last year of this CHIP. The CHIP Partnership completed an annual review on February 6, 2020, where the group discussed accomplishments and areas for improvement.

Strategic Issue Area	Goal
Access to Care	<ol style="list-style-type: none"> 1. Provide all residents in Citrus County with quality, comprehensive, and affordable health care. 2. Public education and outreach.
Obesity	<ol style="list-style-type: none"> 1. Promote lifestyle change through healthier eating. 2. Promote improvement through physical activity.
Access to Healthy Foods	<ol style="list-style-type: none"> 1. Improve access to healthy foods among low-income residents by addressing the key modifiable barriers identified through the CHA.
Florida Healthy Babies	<ol style="list-style-type: none"> 1. Increase breastfeeding rates in Citrus County. 2. Information sharing. 3. Baby boxes.
Mental Health and Substance Abuse	<ol style="list-style-type: none"> 1. Whereas Citrus County is critically underfunded for behavioral health services, we will determine the principal needs of the community and the most effective ways to utilize funding in order to address those needs.

2019 Progress and 2020 Revisions

Strategic Issue Area #1: Access to Care

Socioeconomic factors continue to be a leading factor in access to care issues. Poverty levels, income levels and unemployment rates all remain higher than the state levels. Citrus County remains in the health professional shortage and the medically underserved shortage areas.

Goal 1: Provide all residents in Citrus County with quality, comprehensive, and affordable health care.

Strategy 1: Increase the capacity of Citrus County to provide health care to uninsured and underinsured adults.

Objective 1: Increase percentage of adults in Citrus County who have a regular source of health care.

Key Partners: DOH-Citrus, We Care Program, Volunteer Healthcare Provider Program in Citrus County; local hospitals, Chamber of Commerce, CHIP Partnership, community leaders, media, CCCC, United Way; Citrus Aid and 21st Century C.A.R.E. Foundations and Langley Health Services.

Goal 2: Public education and outreach.

Strategy 1.1.a: Provide public education through development of outreach materials and projects.

Objective 1.1.a: To provide easy to use and understandable outreach materials for all citizens community-wide.

Strategy 1.1.b: Develop non-traditional programs to meet the health care needs of the uninsured and underinsured.

No objective listed.

Key Partners: DOH-Citrus, Langley Health Services, Emergency Medical Services, local hospitals, local physicians and Citrus County Board of County Commissioners-Transportation Services.

2019 Performance							
Objective Number	Objective	Baseline	Performance	Target Value	Target Date	Trend ¹	Status ¹
1	Increase percentage of adults in Citrus County who have a regular source of health care.	No baseline identified	We Care Position was filled on September 2018; however, position vacated	No target identified	No target date identified	▼	Not on Track

			shortly after. One new health care volunteer in 2018. No other progress in 2019.				
1.1.a	To provide easy to use and understandable outreach materials for all citizens community-wide.	No baseline identified	No progress in 2019.	No target identified	No target date identified	▼	Not Completed
2020 Revisions							
1	N/A						
1.1.a	N/A						
Rationale							
No changes were made to objectives 1 and 1.1.a because 2019 was the last year of the CHIP.							

¹Refer to the trend and status descriptions on the following page

Strategic Issue Area #2: Obesity

A leading cause of chronic disease is obesity and/or being overweight both for adults and children. DOH-Citrus continues to educate our citizens on healthy eating habits and opportunities for exercise for citizens and visitors geared to all abilities and financial levels through easy to understand educational materials.

Goal 1: Promote lifestyle change through healthier eating.

Strategy 1: Education.

Objective 1: Reach out to the citizens of Citrus County through community events and through education system.

Objective 2: Develop an updated BMI letter for parents of overweight or underweight students in first, third and sixth grades. The information must be easily understandable and include resource information and clear directions for parental actions.

Key Partners: DOH-Citrus, Citrus County School Board and Healthiest Weight and Lifestyle committee members.

2019 Performance							
Objective Number	Objective	Baseline	Performance	Target Value	Target Date	Trend ¹	Status ¹
1	Reach out to the citizens of Citrus County through community events	No baseline identified	DOH-Citrus Community Health program	No target identified	No target date identified	▲	On Track

	and through education system.		provided healthier eating materials (e.g. My Plate handouts) at 13 events in 2019, where 13,545 persons reached/in attendance.				
2	Develop an updated BMI letter for parents of overweight or underweight students in first, third and sixth grades. The information must be easily understandable and include resource information and clear directions for parental actions.	Old BMI letter	Letters received in 2018-2019 School Year: 548 Letters received in 2019-2020 School Year (to date): 710	Update BMI letter	No target date identified	▼	On Track
2020 Revisions							
1	N/A						
2	N/A						
Rationale							
No changes were made to objectives 1 and 2 because 2019 was the last year of the CHIP.							

Goal 2: Promote improvement through physical activity.

Strategy 1: Physical activities.

Objective 1: Move toward a healthier weight and lifestyle through physical activity.

Objective 2: To educate our citizens and visitors on the many opportunities for physical activity at all levels of ability county-wide.

Key Partners: Healthiest Weight and Lifestyle Committee members, Challenge team leaders and Challenge founder & director; YMCA of the Suncoast.

Strategy 2: Promote use of existing low-cost/no-cost opportunities in physical activity.

Objective 2.1: To educate our citizens and visitors on the many opportunities for physical activity at all levels of ability county-wide.

Key Partners: DOH-Citrus, City of Crystal River, City of Inverness and Citrus County Board of County Commissioners-GIS Division.

2019 Performance							
Objective Number	Objective	Baseline	Performance	Target Value	Target Date	Trend ¹	Status ¹
1	Move toward a healthier weight and lifestyle through physical activity.	No baseline identified	Fitness in Citrus held in 2019	No target identified	No target date identified	▲	On Track
2	To educate our citizens and visitors on the many opportunities for physical activity at all levels of ability county-wide.	No baseline identified	No progress in 2019	No target identified	No target date identified	▼	Not Completed
2.1	To educate our citizens and visitors on the many opportunities for physical activity at all levels of ability county-wide.	No baseline identified	No progress in 2019	No target identified	No target date identified	▼	Not Completed
2020 Revisions							
1	N/A						
2	N/A						
2.1	N/A						
Rationale							
No changes were made to objectives 1, 2 and 2.1 because 2019 was the last year of the CHIP.							

Strategic Issue Area #3: Access to healthy foods

Access to healthy foods is directly tied to obesity and is of continued concern. The USDA Low Income & Low Access Layers have not been updated to date from 2015. This subcommittee did not submit any additional information towards resolution of this strategic issue. Due to the similarities, it is the intention to combine this issue area with the obesity subcommittee going forward.

Goal 1: Improve access to healthy foods among low-income residents by addressing the key modifiable barriers identified through the community health assessment.

Strategy 1: Work with local food pantries and farmers to increase the access, availability and preparation of healthy foods.

Objective 1: Increase the proportion of lower income residents who have access to healthy foods.

Objective 2: Provide education to show, read labels, and prepare foods in a healthy way.

Key Partners: DOH-Citrus, local food pantries, local farmers, The Pregnancy and Family Life Center, Citrus County Board of County Commissioners, Citrus County Community Food Bank and We Care Food Pantry.

2019 Performance							
Objective Number	Objective	Baseline	Performance	Target Value	Target Date	Trend ¹	Status ¹
1	Increase the proportion of lower income residents who have access to healthy foods.	No baseline identified	No progress in 2019	No target identified	No target date identified	▼	Not Completed
2	Provide education to show, read labels and prepare foods in a healthy way.	No baseline identified	No progress in 2019	No target identified	No target date identified	▼	Not Completed
2020 Revisions							
1	N/A						
2	N/A						
Rationale							
No changes were made to objectives 1 and 2 because 2019 was the last year of the CHIP.							

Strategic Issue Area #4: Florida Healthy Babies

The Florida Healthy Babies Initiative is a statewide effort to reduce infant mortality rates through local partnerships committed to reducing disparities in infant mortality through community action planning.

Goal 1: Increase breastfeeding rates in Citrus County.

Strategy 1: Improve access to certified lactation specialists in Citrus County.

Strategy 2: Increase the number of Citrus County worksites with breastfeeding-friendly worksite policies.

Objective 1: Increase the number of Certified Lactation Consultants (CLCs) and/or International Board Certified Lactation Consultants (IBCLCs) available in the community.

Objective 2: Assess worksite policies for breastfeeding mothers and available community spaces for breastfeeding.

Key Partners: DOH-Citrus, Healthy Families, Department of Children and Families, Seven Rivers Regional Medical Center, The Pregnancy and Family Life Center, Devereux Kids, Birth in the Know and The Centers.

2019 Performance							
Objective Number	Objective	Baseline	Performance	Target Value	Target Date	Trend ¹	Status ¹
1	Increase the number of Certified Lactation Consultants (CLCs) and/or International Board Certified Lactation Consultants (IBCLCs) available in the community.	No baseline identified	Two staff from WIC in Citrus County became CLCs in 2019. Currently, Citrus County has 7 IBCLCs or CLCs. More funding would be needed to continue to increase CLCs and IBCLCs.	10	No target date identified	▲	Decision Required
2	Assess worksite policies for breastfeeding mothers and available community spaces for breastfeeding.	No baseline identified	No progress in 2019.	No target identified	No target date identified	▼	Not Completed
2020 Revisions							
1	N/A						
2	N/A						
Rationale							
No changes were made to objectives 1 and 2 because 2019 was the last year of the CHIP.							

Goal 2: Information Sharing

Strategy 1: Identify evidence-based health messaging models or health communication tools for prenatal and postpartum women.

Strategy 2: Develop a social media marketing campaign.

Objective 1: Develop a list of 5 evidence-based health messaging or communication modes for prenatal and postpartum women.

Objective 2: Identify 10 social media partners to promote the health message or communication modes we identify.

Key Partners: DOH-Citrus, Healthy Families, Department of Children and Families, Seven Rivers Regional Medical Center, The Pregnancy and Family Life Center, Devereux Kids, Birth in the Know and The Centers.

2019 Performance							
Objective Number	Objective	Baseline	Performance	Target Value	Target Date	Trend ¹	Status ¹
1	Develop a list of five evidence-based health messaging or communication modes for prenatal and postpartum women.	0 list	Several messaging tools have been created and are currently in use. We have not yet reached 5.	1 list of 5	No target date identified	▲	Not on Track
2	Identify 10 social media partners to promote the health messaging or communication we identify.	0	Several community partners have supported messaging to pregnant and new families, including Florida West Coast Breastfeeding Task Force and Tampa Bay Breastfeeding Task Force.	10 social media partners	No target date identified	▲	Not on Track
2020 Revisions							
1	N/A						
2	N/A						
Rationale							
No changes were made to objectives 1 and 2 because 2019 was the last year of the CHIP.							

Strategic Issue Area #5: Mental Health and Substance Abuse

Mental health and substance abuse in Citrus County has been an ongoing issue in our community due to the need for expanded services to include providers, treatment facilities and Baker Act facilities.

Goal 1: Whereas Citrus County is critically underfunded for behavioral health services, we will determine the principal needs of the community and the most effective ways to utilize funding in order to address those needs.

Objective 1: Conduct a research project that features a critical analysis of the accessibility barriers to behavioral health services in Citrus County.

Objective 2: Use the data collected to determine what the greatest needs of the community are and recommend the most effective ways to address those needs with regard to the funding that is available to the county.

Key Partners: The Centers, Jessie’s Place, NAMI Citrus, Devereux Florida, Lutheran Services Florida, Citrus County School Board, Langley Health Services, Affinity Counseling, Tree of Life Counseling Center, Daystar Life Center, D.A.M, Inc., Community Representative, Anti-Drug Coalition of Citrus County and Citrus County Medical Society.

2019 Performance							
Objective Number	Objective	Baseline	Performance	Target Value	Target Date	Trend ¹	Status ¹
1	Conduct a research project that features a critical analysis of the accessibility barriers to behavioral health services in Citrus County.	0 report	No progress made in 2019.	1 report	No target date identified	▼	Not Completed
2	Use the data collected to determine what the greatest needs of the community are and recommend the most effective ways to address those needs with regard to the funding that is available to the county.	No baseline identified	No progress made in 2019.	No target identified	No target date identified	▼	Not Completed
2020 Revisions							
1	N/A						
2	N/A						
Rationale							
No changes were made to objectives 1 and 2 because 2019 was the last year of the CHIP.							

Progress in 2019

In 2019, the CHIP Partnership continued to meet; however, with previous members no longer attending and new members joining, no further action was taken on the preceding goals, strategies and objectives.

How Targets Were Monitored

At regularly scheduled CHIP Partnership meetings, updates and reports from subcommittee were a standard agenda item; however, due to the lack of clear objectives, subcommittees had no updates to provide at the CHIP Partnership meetings. Instead, information was shared regarding the progress each community partner was making towards goals that aligned with the CHIP. These updates had more to do with individual agency initiatives rather than the objectives identified in the CHIP.

Trend and Status Descriptions

*Trend Descriptions:

-  = Data trend is upward and in the desired direction for progress
-  = Data trend is downward and in the desired direction for progress
-  = Data trend is upward and in the undesired direction for progress
-  = Data trend is downward and in the undesired direction for progress

**Status Descriptions:

- **On Track** = Objective progress is exceeding expectations or is performing as expected at this point in time
- **Not on Track** = Objective progress is below expectations at this point in time
- **Decision Required** = Objective is at risk of not completing/meeting goal. Management decision is required on mitigation/next steps.
- **Completed** = Objective has been completed or has been met and the target date has passed
- **Not Completed** = Objective has not been completed or has not been met and the target date has passed

Revisions

With much consideration in the lack of attainable objectives, new members and many updates from the 2018 CHNA, the CHIP Partnership chose not to revise the plan and instead made 2019 the last year of the plan.

Accomplishments

Goal	Objective	Accomplishment
Develop a plan for implementation of Baby Boxes.	Create an assessment tool for provider support by December 31, 2016. Meet with all pediatric and OB/GYN providers using the tool generated by June 30, 2017.	Within the past 2.5 years, more than 500 Baby Boxes and safe sleep items and education were distributed to Citrus Families at no cost. Because of the subcommittee's commitment to gaining provider/community support and feedback, the Baby Box program presented at the National Association of County and City Health Officials (NACCHO) annual conference in 2018. According to FLHealthCHARTS, the rate of Citrus County infant deaths from unintentional suffocation and strangulation per 1,000 live births decreased from 1.9 (2016) to 1.0 (2018).
Why This Accomplishment is Important for Our Community		
Baby boxes, and the safe sleep education that is provided with them, are credited for helping achieve low infant mortality rates around the world. Through this initiative, more than 500 Baby Boxes and high-quality online parenting courses from health care experts were provided to Citrus families who wouldn't have been able to afford them otherwise.		

Goal	Objective	Accomplishment
Promote lifestyle change through healthier eating.	Reach out to the citizens of Citrus County through community events and through education system.	Through this initiative, DOH-Citrus Community Health program provided healthier eating materials to more than 15,000 adults and children at approximately 19 events from 2018-2019.
Why This Accomplishment is Important for Our Community		
Over the next 20 years in Florida, obesity is expected to contribute to millions of cases of preventable chronic diseases such as type 2 diabetes, heart disease and cancer, costing an estimated \$34 billion. According to FLHealthCHARTS, 40.6% of Citrus County adults were overweight in 2016, a percentage that is well above the state percentage of 35.8. Providing easy to understand nutrition education is important in combating the rising rates of obesity and preventing chronic disease in Citrus County, as well as help children and adults make consistent, informed choices about healthy eating and active living.		

Conclusion

The CHIP serves as a roadmap for a continuous health improvement process for the local public health system by providing a framework for the chosen strategic issue areas. It is not intended to be an exhaustive and static document. We will evaluate progress on an ongoing basis through quarterly CHIP implementation reports and quarterly discussion by community partners. We will conduct annual reviews and revisions based on input from partners and create CHIP annual reports by February of each year. The CHIP will continue to change and evolve over time as new information and insight emerge at the local, state and national levels.

By working together, we can have a significant impact on the community's health by improving where we live, work and play. These efforts will allow us to realize the vision of being one of the top 10 healthiest counties in the State of Florida as measured by Robert Wood Johnson.
