VI. **Website Resources Review** – *Council Members*

Kristine Benson updated the group that hypothyroidism should not be added to the website as there are not enough resources or support groups. She reminded the group that the focus of the site is to link families with resources that provide support after receiving diagnosis of a developmental disability.

Kiersten Finchum explained that Landau-Kleffner Syndrome causes epileptic seizures and should be mentioned within the Epilepsy condition tab.

Maggie Dilger with the Department updated the council that a link had been removed from the Bright Expectations website. She explained all sites have to be a non-profit, and the removed link was a vendor site: <https://www.bluesprigautism.com/florida-autism-center/>. The site was for the Florida Autism Center, and it perhaps, at one time, linked to their support group.

The council also reviewed inaccessible links the Department had identified and provided feedback.

They included:

- Autism Resources:
 - [Autism Society](#) – in third paragraph (link inaccessible)
 - It was noted this once linked to an “About” page and the council suggested changing to the Autism Society’s main page: <https://autismsociety.org/>
- Down Syndrome (Trisomy 21)
 - <https://dsatallahassee.com/> – listed under support groups (link inaccessible)
 - This web address is no longer live and should be removed from the website.
 - <https://www.tcdownsyndromeag.org/> – listed under support groups (link inaccessible)
 - This web address is no longer live and should be removed from the website.

- Epilepsy
 - [Epilepsy Florida](#) – in first paragraph (should read “Epilepsy Alliance Florida”)
 - The Department will change “Epilepsy Florida” to the correct name, “Epilepsy Alliance Florida”
- Fetal Alcohol Syndrome
 - <https://nofas.org/resource-directory/> – in second paragraph (link inaccessible)
 - Kristine Benson volunteered to find an alternate link.
