

Anna R. Giuliano, PhD, is the founding director of the Center for Immunization and Infection Research in Cancer (CIIRC) at the Moffitt Cancer Center. Her work has contributed significantly to our understanding of the rate at which HPV infections are acquired and cleared, the proportion that progress to disease, and also to HPV vaccine protection against multiple diseases in women and men.

Anna R. Giuliano, PhD, is the founding director of the Center for Immunization and Infection Research in Cancer (CIIRC) at the Moffitt Cancer Center. Her career had its inception in the relationship between human papillomavirus (HPV) infections and cervical cancer in women, and has evolved over the past several decades to encompass HPV and penile, anal, and oral cancers in men, as well as other infectious diseases and their causal relationships with various cancers. Her work has contributed significantly to our understanding of the rate at which HPV infections are acquired and cleared, the proportion that progress to disease, and also to HPV vaccine protection against multiple diseases in women and men. An expert in the field of cancer research with a longstanding and successful record of National Institutes of Health funding since 1990, she has been actively involved in cancer epidemiology and prevention studies conducted among diverse populations in the United States and abroad. In the course of those endeavors, Dr Giuliano was a contributor to the 1999 Institute of Medicine (IOM) report titled *The Unequal Burden of Cancer* and the 2005 International Agency for Research on Cancer (IARC) report that concluded for the first time that HPV is a cause of multiple cancers in women and men. In 2013, at the 100th anniversary of the American Cancer Society (ACS), she was the recipient of the ACS Distinguished Achievement

in Cancer Award. In 2018, she was selected for the ACS Clinical Research Professor Award for “Prevention of Infection-Related Cancers.” Dr Giuliano has authored more than 400 peer-reviewed publications. <https://www.cancer.org/latest-news/acs-research-professor-anna-giuliano-phd.html>
