DOH-Hamilton Extends Rabies Alert

Contact:

Sallie Ford
386-758-1058

Jasper, Fla.—The Florida Department of Health in Hamilton County (DOH-Hamilton) is extending a rabies alert in Hamilton County in response to a confirmed case of rabies in a fox that died suddenly in an area near Jennings off NW 37th Blvd. on June 24, 2026. DOH-Hamilton is monitoring rabies among wild animals in the area. All residents and visitors should be aware that rabies is currently present in the wild animal population.

People and domestic animals should always avoid physical contact with wild animals (e.g., raccoons, bats, foxes, skunks, otters, bobcats, coyotes), which carry a higher risk of human exposure and a need for rabies post-exposure treatment. If you are exposed to rabies, receiving appropriate treatment after exposure will protect you from the risk of rabies.

This rabies alert will end on August 25, 2026, and includes the following boundaries in Hamilton County:

- **Northern boundary:** NW County Road 143
- **Southern boundary:** NW County Road 146
- **Eastern boundary:** NW 37th Blvd.
- **Western boundary:** NW 58th Ave.

Take the following precautions to prevent rabies exposure:

- Immunize your pets and livestock based on your veterinarian's recommended schedule.
- Keep pets under direct supervision and on a leash, and keep livestock secured on your property. If an animal bites your pet or livestock, seek veterinary assistance for the animal immediately and contact Hamilton County Animal Control at 386-249-9000.
- Avoid contact with wild or stray animals. Do not handle, feed, or unintentionally attract them with outdoor pet food, open garbage cans, or other sources of food. If you have been bitten or scratched by a wild or domestic animal, seek medical attention, and report the injury to DOH-Hamilton by calling 386-792-1414.
- Never adopt wild animals or bring them into your home; instead, contact a [licensed wildlife rehabilitator](#).
- Call your local animal control agency to remove any stray animals from your neighborhood. Contact Hamilton County Animal Control at 386-792-1414.
- Prevent wildlife, including [bats](#), from entering living quarters or occupied spaces in homes, schools, and other similar areas where they might come in contact with people and pets.
