

THE FLORIDA PRENATAL SCREEN

Florida Department of Health

HELPING YOU HAVE A HEALTHY PREGNANCY AND BIRTH

The Florida Prenatal Screen is a screen provided to all expecting Florida moms to support healthy pregnancies and births.

About the Screen:

- The screen is quick and easy to complete.
- The screen is provided to all expecting moms and should be completed before your first prenatal appointment.
- This screen helps health care providers know how to best support you through a healthy pregnancy and birth.
- Completing the screen can provide you with access to helpful community support services during and after your pregnancy.

Didn't receive the screen from your health care provider? Ask your health care provider to give you the electronic screen during your first prenatal appointment.

ACCESS TO SUPPORT

The results of your screen may result in a call from an intake specialist to tell you about the pregnancy and post-birth support services available in your community. If you believe you may benefit from home visiting services, let your provider know. Services can be provided at your home or a location you feel most comfortable.

Participating and consenting to the screen provides you *and* your baby with access to the following services:

- Home visiting individual support for mothers and fathers
- Childbirth education
- Doula services
- Nutrition education
- Preparations for baby's arrival
- Care coordination and connection to local services
- Between pregnancies education and support
  - Planning for future pregnancies
  - Education about the Family Planning Waiver
  - Education about contraception options

Additional Resources

These resources are provided to all expecting Florida moms:

- **Strong Florida Moms** is your one-stop shop for support for mothers from pregnancy and beyond. Visit: **StrongFLMoms.com**
- **Florida Home Visiting** offers support to families during pregnancy and after childbirth at no cost. Visit: **FLHomeVisiting.com**
- **Hope Florida** helps families find employment, education, and meet immediate needs (shelter, child care, meals, etc.). Call: **1-850-300-HOPE**
